BSES energises ~6000 Roof-Top Solar Connections

Join the Solar Revolution with BSES! We are thrilled to reiterate that our commitment to sustainability is stronger than ever. With nearly 160 MWp of connected solar load, we have energized a record ~6000 rooftop solar installations. Our 'green push' strategy isn't just about purchasing renewable power or supporting electric vehicle charging stations - it's also about empowering our community with rooftop solar. By joining hands with BSES, you are not just choosing sustainable energy; you are becoming a vital part of a brighter, greener future. Let's harness the power of the sun together!

SAFETY FIRST

Get an ELCB installed

It is mandatory for consumers having electricity load of 2 kW & above*

ELCB (Earth Leakage Circuit Breaker) is a simple yet a very useful device that detects earth leakage, automatically tripping and disconnecting the electricity supply to the premises/equipment, thus preventing serious mishaps

*Under section 42 of the Central Electricity Act (CEA) Regulation 2015
